

A modern communications system that gives you security, scalability, and stability.

Integrates with:

- SIP phones
- Telephone adaptors
- SIP gateways
- Internet telephony service providers
- Commercial off-the-shelf components

pbxnsip PBX Office software is designed for companies needing flexible and innovative solutions when addressing their complex communications needs. pbxnsip is an application-rich IP-PBX that is highly scalable and services a wide variety of capacities, capabilities, and vertical industries. Software is available for both the small office that uses a Mac, PC, FreeBSD, or Linux appliance and global corporations that span multiple continents and thousands of users spread out over multiple servers. Call center applications, virtual machines, and remote telecommuters are fully supported. The cost/value quotient that pbxnsip brings to the marketplace is unbeatable and delivers higher value for those looking for high-end features and benefits at a reasonable cost.

Three editions to meet any company's needs

Call recording			•

Office BASIC

Tailored for cost-conscious customers who don't need all the bells and whistles. Office BASIC is appropriate for small offices and residential applications. Includes essential features like voicemail, auto attendant, and hunt groups.

Office PRO

Geared for enterprise environments. In addition to Office BASIC features, Office PRO includes paging, conferencing, service flags, access lists, and Microsoft® Exchange 2007 UM integration.

Office PRO PLUS

Ideal for customers looking for call center features. In addition to all BASIC and PRO features, PRO PLUS includes agent groups, call recording of all calls, and listen-in, barge-in, and teach-mode functionality (coach an agent without the caller hearing).

Upgrading between versions is easy and requires the purchase of a new license key. All versions have multi-tenant capability and support the G.729 low bit rate codec for an additional charge. Licenses are based on extensions, making it easy to determine how many licenses are needed in an office.
